MEMORANDUM FOR: [REDACTED]

SUBJECT : NSA Memorandum Serial M3/916  
dated 28 October 1963

1. Following my conversation with you about the program involved in referenced memorandum, I have reviewed this matter with the Deputy Director (Support) and have briefed him on the development of this project as you described it to me.

2. I believe that we are now prepared to respond to subject memorandum and would appreciate your providing me with a reply representing the conclusions of those concerned. If we are not ready to give NSA a final answer, I believe we should send an interim acknowledgement stating when our reply might be available. Although I have not been directly involved in this program, I believe that it would be appropriate for me to sign correspondence to the Director of Personnel of NSA regarding the availability of persons employed by this Agency.
